Presentation Genius

## PROFILE

One of the UK's leading presentation skills trainers (and presenters!). I spent 24 years as a research scientist (PhD in medical geography) so everything I do is based on empirically validated work, not just opinion.

You can see a five minute compilation shot by audiences at [vimeo.com/197904940](https://vimeo.com/197904940)

## BACKGROUND

I spent nearly two and a half decades as a researcher at the UK's largest social science research centre - the second most influential one of its kind in the world.

I've also worked as an author, playwright, fire-eater, trainer, actor and as a lighting designer for dance companies.
